Alireza Azizi

Mid Level Backend Developer

Skills

Python — 4+ yrs

Django — 3+ yrs

Flask — 2+ yrs

Keras — 3+ yrs

Bash Script — 2+ yrs

Golang — 2+ yrs

SQL — 2+ yrs

Docker — 2+ yrs

Git — 4+ yrs

Other

Linux, RabbitMQ, Redis, Celery, MongoDB, PostgreSQL, Deep Learning, RL, CI/CD, React, React Native

Contact

- alrzazz@yahoo.com
- alirezaazizi1396622@gmail.com

Education

- Mathematics and Physics in Shahid Beheshti High School, Shahrood, Iran (2012-2016)
- Computer Engineering in Iran University of Science and Technology, Tehran, Iran (2017-Present)

Teahcing Experience

- Teacher's Assistant for Fundamental of Programing (Dr. Zeinab Movahedi)
- Teacher's Assistant for Fundamental of Programing of C# (Dr. Sauleh Etemadi)
- Teacher's Assistant for Advanced Programming of C# (Dr. Sauleh Etemadi)

Self Study

- Improving Deep Neural Networks: Hyperparameter tuning, Regularization and Optimization [certificate]
- Using Python to Interact with the Operating System [certificate]
- Design Patterns [certificate]
- Neural Networks and Deep Learning [certificate]

Projects

- Health-Record-Backend : System for save all healthy information of a patient using Django REST API, PostgreSQL, Nginx, github CI, and Docker Compose [link]
- Data-Structure-Course : Some Data Structure and Algorithem impelemation for Dr. Eetemadi Course [link]
- yes-or-no-recognition : An application for sound recognition with Keras [link]
